Jeff Fox, Extension Division Director

NOTES

1. Population figures have been taken from sources provided by the Arizona Department of Economic Security.

2. The population figures given for each county include the following components:

   a. Incorporated cities and towns, city-county and county library service areas;

   b. Unincorporated communities and

   c. County totals for incorporated cities and towns and unincorporated areas.

3. The city population of a city-county library is followed by the population that is the primary responsibility of the county library. This figure includes the population of unincorporated communities that have public library service, residents of incorporated cities and towns without public library service, and the population of the county that does not have access to site library service. In many counties, libraries serving incorporated cities and towns may also receive services from the county library although this is not reflected in these figures.

4. The figure under the heading "Book Stock, 6/30/86" is the total number of books that were available to the public as of the date noted. This figure includes the figure given under "Books Added FY 85-86."
